LUKASZ WIERZBOWSKI
Berlin / Warsaw / London

Lukasz Wierzbowski commutes between Warsaw and London. His work is built around the tension that evolves between a model and its surrounding environment. He is the master of disruptive patterns, everyday settings become unconventional spaces and ordinary occurrences become extraordinary happenings in a seemingly random sequence of captured moments-in-between. Wierzbowski's work has been exhibited with solo and group shows around the world in cities ranging from: New York, Los Angeles, London, Berlin, Warsaw, Moscow, Madrid, Rome, Milan, Melbourne and Taipei.
